|-------------------|--|-------------|
| Education | University of Illinois at Chicago College of Architecture, Design & Arts School of Design Bachelor of Design | 2015 |
| Experience | Bridge Financial Technology Designer/ Developer I re-branded a 15 year old financial services company into a financial technology company. I created all of the marketing materials, such as case studies, white papers, social media banners, presentations and html emails. I was also a part of the development team, where I created user flows, pro types in html and css, and iterated designs in the front-end. | 01.16–01.17 |
| | HDG Junior Designer I created marketing materials for various non-profits. I created logos for small events and conferences, as well as banner ads. | 08.15–11.15 |
| | Morningstar, Inc. Design Intern I created and maintained various marketing materials, such as HTML emails, one page sales sheets, conference brochures, and social media banners. | 05.13–08.15 |
| Skills | Adobe Creative Suite Front-end development Making Yogurt | |
